Reimbursement**

GKN is the world's leading supplier of metal powder precision components. Their global production and sales network employs approximately 6,500 associates in more than 30 facilities on five continents. With a history dating back to the 1930s, today they have production sites in Germany, Italy, South Africa, India, China, Brazil, Argentina, Canada and the USA. GKN offers a complete range of Pressed Metal products, technologies and engineered solutions. Backed by unparalleled expertise around the world, they are committed to delivering the manufacturing and engineering support needed to succeed. By promoting a "Design for PM" approach within their engineering organization, they strive to work with their customers to maximize the value PM has to offer their applications in terms of unique materials, creative geometries and inventive processes. With the support of their dedicated R&D centers and their global manufacturing footprint, they are committed to connecting their customers to the latest advancements in PM technology. They provide their customers with a wide range of products, technologies and services - extending from engineering and design consultation, to product testing and the manufacture of the most complex of components. Visit their website prior to your visit for more information www.gkn.com.
