

## An Innovative Leadership Program

Most community leadership programs focus on making participants aware of the broad issues that face their communities. This program also includes leadership skills development and understanding trends that will impact your community in the future.

### Each session will focus on:

- > Tools to improve your leadership development skills.
- > Introduction to key factors and organizations that impact quality of life in Potter County.
- > Introduction to future trends that will impact Potter County and exploring ways to take advantage of these trends as they occur.

“Leadership Potter County is an excellent program that helps individuals recognize their potential as leaders. Understanding what true leadership requires to be effective will assist them in achieving personal goals, as well as, being successful when working with others. This program is a win-win for all.”

Doug Morley  
Potter County Commissioner

# Leadership Potter County

## Education Council

Connecting you to the World  
through Education

# Communities Need Leaders Like YOU!

Do you want to have a say in the life of your community? Would you like to get behind a community project or issue that has special meaning to you? Do you want to be a part of moving Potter County forward?

You can make a difference! One of the most critical needs in the county is strong local leadership for the future well-being of our communities. This includes leadership for civic and non-profit organizations, youth programs, businesses, communities, churches, elected officials, schools, and community events.

## Who Are Our Future Leaders?

Communities need leaders from all walks of life. Everyone brings personal experiences, unique talents, and points of view that make them truly valuable assets to their communities. Leaders become more valuable when, as lifelong learners, they continue to expand their leadership skills and knowledge of their community.

## Our Mission

The mission of Leadership Potter County is to encourage and foster the development of future Potter County Leaders. This program will help you recognize your leadership potential and identify the issues facing your community and teach ways to get involved and make a difference.

“While taking LPC, I was a senior in high school and I was debating on what I wanted to major in in college. When thinking about my options, one thing stuck out in my mind from LPC, and that was the Human Services session. I learned about all the different departments and services they provide to the community of Potter County. LPC is one of the leading factors in deciding what I went to school for. The experiences and services I was able to provide to the community (while interning at PCHS) is something that I will never forget, and I will take my experiences learned and apply that to my professional career. LPC has had a huge impact in my life in ways that I could never imagine!”

McKayla Cochran  
LPC 2013

## Tuition

**\$650 per participant**

**Get a \$50 discount** if you are the first participant from your organization or you were referred by an alumnus. Scholarships and payment options are available for those demonstrating need. It is important for both the individuals participating in this course and their employers to fully support this initiative. Oftentimes a business sponsoring a participant will pay for all or part of the program.

## Achieving Your Leadership Potential

This program will help you expand your personal leadership skills, introduce you to key factors currently impacting your region, and provide you with an understanding of future trends that may impact your community. Through this process, you will decide the best way for you to get involved.

“Leadership Potter County had such a profound impact on me, as both an individual and a community member, that when my family decided to move to the United Arab Emirates in the middle of the program, I knew that I needed to continue the course from afar. I will be forever thankful for the insight, the generosity, the knowledge, and the connections Leadership Potter County has provided.”

Megan Walck
