

#6

Welcome parents, grandparents, aunts and uncles.

Watch this place weekly to find out inexpensive ideas that you can use to make sure **your** child becomes a successful adult. Let's face it- there isn't a parent in the world who doesn't wish the best for their child. So join us each week to learn something new. It will only take five minutes of your time to review this information, but it will lead to a lifetime of success for your child.

Things to consider

- If preschool children receive quality Early Childhood Learning opportunities they will start school ready to learn
- If children start school ready to learn they are more likely to read at third grade level when they reach 3rd grade
- If a child reads at grade level by 3rd grade they are more likely to graduate from High School
- If a child completes High School they are more likely to be a contributing member of their community.

What you can do

- **Read** to your infant and preschooler.
- Explore available Early Childhood programs at your school and in your community.
- Read to your child, provide books that match the child's age and ability to follow along or read
- Once your child starts school stay on top of assignments, papers brought home.
- Stay in conversation with teachers about your child's progress.
- Be encouraging to your child as he attempts to learn.
