

**#8**

**Welcome parents, grandparents, aunts and uncles.**

Watch this place weekly to find out inexpensive ideas that you can use to make sure **your** child becomes a successful adult. Let's face it- there isn't a parent in the world who doesn't wish the best for their child. So join us each week to learn something new. It will only take five minutes of your time to review this information, but it will lead to a lifetime of success for your child.

**Things to consider**

- Did you know that time in the kitchen is an opportunity to allow your infant to explore and discover?
- A time to help your toddler learn to follow directions and learn communication skills.

**What you can do**

- Provide different size bowls and measuring cups and spoons for your infant to explore.
- Name the sizes, shapes and count the number of items as you hand them to your infant.
- For your toddler- show how to stack according to size, talk about which is biggest, smallest, and be sure to count them as well.
- Ask your toddler to identify the shapes and sizes while pointing to the correct item.
